EDITORIAL

The publication of this volume would not have been possible without the substantial grants received from the Department of the Environment in respect of the articles by P. J. Fasham (p. 37–86), D. S. Neal (p. 91–143), R. Whinney and G. Walker (p. 153–60), S. M. Davies (p. 161–80) and J. Bourdillon (p. 181–91); and from the Test Valley Archaeological Committee, also towards the cost of the Davies article.

The Society is very grateful for such financial support, which has ensured the publication of a wide range of excavation and research results, and their availability to members at a reasonable price.

The General Editor would like to thank in particular Eileen Power and Tim Champion for their help with this volume, while acknowledging in the year of his absence the enormous amount of work undertaken by Arthur ApSimon in editing the *Proceedings* over the past years.

Articles intended for publication in the *Proceedings* should be sent to the Hon. Editors, c/o Department of Archaeology, University of Southampton, Southampton SO9 5NH, from whom copies of *Instructions to Contributors* may be obtained. Copy should reach the editors by 1st May in each year.
