The Hampshire Field Club and Archaeological Society was founded in 1885 and for over one hundred years has been Hampshire's most active association for the study of the county's past and natural history. It has a regularly issued journal, *Hampshire Studies* (formerly the *Proceedings of the Hampshire Field Club and Archaeological Society*, and still named as such for the purposes of academic references), that publishes articles on natural history, geology, landscape, archaeology, history, historic buildings and industrial monuments.

Articles intended for publication should be sent to the Secretary, HFC Editorial Board, Pauline Blagden, 37 Auckland Road East, Southsea, PO5 2HB, email: pauline@blagden.info. All articles are refereed by academic consultants, and are prepared for publication by a team of subject editors, from whom advice can also be obtained by prospective authors considering the submission of a paper for publication.

Publication of an article in *Hampshire Studies* does not imply that the Field Club endorses the views expressed. Although the Editorial Board endeavours to publish accurate and meaningful research, responsibility for the factual content and opinions expressed remains that of the individual authors.
